TANDOOR-E-AZAM

The "Tandoor" is used for tandoori meat preparation and baking tandoori breads. It is an earthenware pot which is about four feet deep. The upper half slopes inward thus presenting an opening about a foot in width. It is fired and heated with charcoal. The tandoori preparations tend to have a unique, 'earthy' taste about them'.

CURRY

Does that sound familiar? Indian cuisine is synonymous with curried preparations. However, the preparation of curry as it pertains to Indian cuisine is totally different from the everyday mention that links it to the curry powder so readily available at the supermarkets. Curry in India is not a dish but a class of dishes.

The art of Indian cookery lies not in high spicing but in the subtle use of delicate spices to enhance the dormant flavors and subdue the undesirable ones.

We have a varied mix of preparations from different regions of India; however, the dominant style is "MUGHLAI" and has its roots in the Mughal era.
